**Purpose:** To provide information about upcoming air program activities.

**Background:** In response to community requests to share information about EPA's air programs, the Agency has begun to host bi-monthly conference calls to foster dialogue between EPA and interested community groups.

### **Agenda**

- Discuss grant and partnership opportunities for Gulf Spill communities and the role these communities should play during the August 2011 EJ Air Conference.
- Discuss first steps for EPA's Petroleum Refinery rules.
- Identify points of contact for specific EPA projects and rules.
- Identify methods to improve public participation in the permitting process.
- Discuss future Clean Air Act 101 webinar(s).
